Superhero Catalog – Kotlin Program

Name: Sudarshan G

Program Description

This Kotlin program builds a simple Superhero Catalog using data classes, lists, and functions. The output is structured clearly to ensure readability and accessibility-friendly formatting.

Kotlin Source Code

```
data class Superhero(
   val name: String,
   val power: String,
   val mission: String
)

fun displayHero(hero: Superhero) {
   println("========================================")
   println("HERO NAME   : ${hero.name}")
   println("SUPER POWER : ${hero.power}")
   println("MISSION     : ${hero.mission}")
   println("========================================\n")
}

fun displayCatalog(heroList: List<Superhero>) {
   println("\n******** SUPERHERO CATALOG ********\n")

   if (heroList.isEmpty()) {
      println("No heroes available in the catalog.")
   } else {
      heroList.forEach { hero ->
         displayHero(hero)
      }
   }
}

fun main() {
```

```
    val hero1 = Superhero(
        name = "Shadow Strike",
        power = "Invisibility and stealth combat",
        mission = "Protect the city from organized crime"
    )

    val hero2 = Superhero(
        name = "Volt Guardian",
        power = "Electricity manipulation",
        mission = "Maintain balance in the power grid and fight tech villains"
    )

    val hero3 = Superhero(
        name = "Aqua Shield",
        power = "Water control and underwater breathing",
        mission = "Defend marine life and coastal cities"
    )

    val heroCatalog = listOf(hero1, hero2, hero3)
    displayCatalog(heroCatalog)
}
```

Program Output

```
******** SUPERHERO CATALOG ********

========================================
HERO NAME   : Shadow Strike
SUPER POWER : Invisibility and stealth combat
MISSION     : Protect the city from organized crime
========================================

========================================
HERO NAME   : Volt Guardian
SUPER POWER : Electricity manipulation
MISSION     : Maintain balance in the power grid and fight tech villains
========================================

========================================
HERO NAME   : Aqua Shield
SUPER POWER : Water control and underwater breathing
MISSION     : Defend marine life and coastal cities
```
